## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17, 20-24, 28, 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Kwak. Note that Kwak states that his dispensers are changeable in column 1 lines 44-48.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-13, 16, 18-19, 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kwak in view of DeMars. The rationale from the last Office action is incorporated herein by reference.

### ***Allowable Subject Matter***

Claims 14-15, 25-26, 29-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

Applicant has appropriately amended claim 1 so the rejection based on formal matters has been dropped. Applicant's allegation that Kwak does not show the material of claims 17 and 28 appears to be in error. Specifically Kwak mentions the changeability of the dispensers in column 1 lines 44-48. Applicant suggests that Kwak and DeMars do not show all the claimed limitations of claim 1. He however fails to mention specifically which limitation or limitations are not shown. It is felt that the claims are met as previously stated.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
